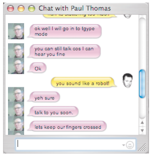
Am-I-able Network: International Participant with the Am-I-able Network led by Simon Fraser University. The Network is pursuing research focused on enabling new modes of expression and experience of culture through the use of ambient intelligence technologies. The project is funded through a grant by the New Media Research Network fund at Canadian Heritage. Participants include: Banff Center for the Arts, Concordia University, K3 Malmo, V2 and Art Institute London.



Chat with Paul Thomas

ok well I will go in to tgype mode

you can still talk cos I can hear you fine

Ok

you sound like a robot!

yeh sure

talk to you soon.

lets keep our fingers crossed

the sound keeps breaking up. maybe if you juest tell me when to rabbit on a bit and I will

lets go to audio only

ok audio trying to get throu

23:45

the audio has gone all shit again, must be cus your downloading

can hardly hear you with all the break up

ok got that

23:50

send me an email with the ppt url in it.

can you hear me ok

nah its stuttering too much

ok well I will go in to tgype mode

you can still talk cos I can hear you fine

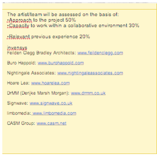
Ok

you sound like a robot!

yeh sure

talk to you soon.

lets keep our fingers crossed



The artist/team will be assessed on the basis of:
·Approach to the project 50%
·Capacity to work within a collaborative environment 30%

·Relevant previous experience 20%
